Exact (tree DP / interval DP / ILP)
Ours (GNN+RL + RR, 2 seeds)
Greedy + RR

Trees
|S|, unit weights
Size of the set |S|
Number of nodes (n)
Ours beats Greedy in 25.5% of graphs (ties 61.5%)

Unit-interval graphs
|S|, unit weights
Size of the set |S|
Number of nodes (n)
Ours beats Greedy in 22.0% of graphs (ties 25.5%)

Convex bipartite graphs
|S|, unit weights
Size of the set |S|
Number of nodes (n)
Ours beats Greedy in 26.0% of graphs (ties 31.5%)

2-trees
|S|, unit weights
Size of the set |S|
Number of nodes (n)
Ours beats Greedy in 3.5% of graphs (ties 67.5%)

W(S), degree weights
Total weight W(S)
Number of nodes (n)
Ours beats Greedy in 74.0% of graphs (ties 7.0%)

W(S), degree weights
Total weight W(S)
Number of nodes (n)
Ours beats Greedy in 92.0% of graphs

W(S), degree weights
Total weight W(S)
Number of nodes (n)
Ours beats Greedy in 79.0% of graphs

W(S), degree weights
Total weight W(S)
Number of nodes (n)
Ours beats Greedy in 86.0% of graphs (ties 2.5%)

W(S) / W_exact, degree weights
Approximation ratio W(S) / W_exact
Number of nodes (n)
Ours beats Greedy in 74.0% of graphs (ties 7.0%)

W(S) / W_exact, degree weights
Approximation ratio W(S) / W_exact
Number of nodes (n)
Ours beats Greedy in 92.0% of graphs

W(S) / W_exact, degree weights
Approximation ratio W(S) / W_exact
Number of nodes (n)
Ours beats Greedy in 79.0% of graphs

W(S) / W_exact, degree weights
Approximation ratio W(S) / W_exact
Number of nodes (n)
Ours beats Greedy in 86.0% of graphs (ties 2.5%)
